Please see above for our Size Guides. The **torso** measurement is the most important measurement for our leotards in order to ensure the best fit. **We suggest choosing the size that the torso measurement fits into, even if the other measurements fit into a smaller size.**

**Most of our leotards are lined and so run a size smaller. Boys leotards are not lined.**

The torso is measured from the top of a shoulder, down the stomach, through the legs and back up to the same shoulder.
